Freedom to inovate.

If this was a drug, wouldn't you have a patent on it.

You can't, what's new today is old tomorrow invlving the internet.

In some cases there having law suits today and making the rules tomorrow.

I have a little company,so should I automaticaly sue a bigger company with not much of a cause.

Who knows, I might win, if not it will be a tax deduction.

Thank you, Danny O. Bielby
